Scope of Presentation

- Creating self renewing bibliographies for Symphony opacs.
- Illustrations from eLibrary, Symphony version 3.2.
- Does not apply to Horizon.

Bibliographies at Himmelfarb

- 14 subject bibliographies + a new acquisitions list.
- Most initiated by reference or library administration.
- Several running since late 90's = migrate well from upgrade to upgrade.

Adding the Info Desk Policy in the 598 Tag

- The **Add Items to Item List** report adds the 598 tag with the Info Desk policy to your selected group of records.
- The **List Bibliography** report has similar selections. You can use it to experiment with report logic first.

Sample Selections to Use

- Selections at title, item, or orderline level.
- For subject bibliographies, use search strings.
- For new acquisitions lists, use date created or cataloged, or location (new book shelf?), or orderline selection.

Listing Records with the 598 + Info Desk Policy

- Run adutext first to make entry searchable.
- Run a List Entries from Catalog report from the Bibliographic reports group.
- Selections are:
 - Entry IDs: 598
 - Search String: your Info Desk policy label (e.g. “TEACHING”)

Scheduled Reports : Schedule teachingrem

Basic Information Desk

Information Desk: TEACHING

Only selection on this report is the Info Desk policy to remove. Will remove the policy and 598 from all records that have the policy.

The screenshot shows a software window titled "Scheduled Reports : Schedule teachingrem". It has two tabs: "Basic" and "Information Desk", with "Information Desk" selected. Below the tabs is a label "Information Desk:" followed by a dropdown menu containing the text "TEACHING" and a downward-pointing arrow. A blue speech bubble points to the dropdown menu, containing the text: "Only selection on this report is the Info Desk policy to remove. Will remove the policy and 598 from all records that have the policy."

Making Your Bibliography Visible in the OPAC

The screenshot shows the SirsiDynix Symphony WorkFlows application. The main window is titled "Gateway Database : List Policies". On the left, there is a sidebar with various configuration options, including "Acquisition Conf...", "Authority Config...", "Booking Configur...", "Cataloging Config...", "Circulation Config...", "General Configur...", "OPAC Configurati...", "Gateway", and "Gateway Database". The main area displays a table with the following data:

Name »	Description
HIMMELFARB	Unicorn WebCat
ILINK	Himmelfarb Library Catalog
UNICORN	Unicorn Delivery Gateway
WEBCAT	Himmelfarb Health Sciences Library Catalog

A blue callout bubble points to the "HIMMELFARB" entry in the table. The text inside the bubble reads: "Go to Opac Configuration -> Gateway Database and modify the correct Gateway to add the new element for your bibliography."

Making a Permanent URL

- The underlined portions of the URL are dynamic:

[http://opac.medlib.gwumc.edu/uhtbin/cgisirsi/vdi9OIRcm/0/248510019/28/1203/X](http://opac.medlib.gwumc.edu/uhtbin/cgisirsi/<u>vdi9OIRcm/0/248510019/28/1203/X</u>)

- Substitute 0 for the dynamic portions:

[http://opac.medlib.gwumc.edu/uhtbin/cgisirsi/0/0/0/28/1203/X](http://opac.medlib.gwumc.edu/uhtbin/cgisirsi/<u>0/0/0/28/1203/X</u>)

Bibliography Maintenance

- Once a year check report logic, especially for those with dated selections.
- Update whenever there are changes in location or material type on the system.
- Usually migrate to new versions without needing any intervention.
