Are you or your students participating in GW Research Day? Each year students and faculty produce excellent posters highlighting their research. To help promote their hard work and achievements Himmelfarb Library is encouraging all Research Day participants to submit their posters to Himmelfarb's [Health Sciences Research Commons \(HSRC\)](#). The HSRC is an online repository where students and faculty can submit their posters and abstracts and have them archived and made available online. You can link your poster to your webpage profile or CV.
