March 2016

Do you need help organizing your research output including publications? Try creating an [ORCID](#) account to help you import all of your publications from research articles and conference proceedings to reports. ORCID (Open Researcher and Contributor ID) was launched in 2012, allows researchers to create a unique identifier that can be directly associated and linked back to all of their research and publications. The ORCID account is free and very easy to create and use to begin managing all your records of research activities.

The challenge in the past has been that most databases or online resources are either limited to articles in peer-reviewed journals or are unable to accurately capture your entire work such as a policy brief, or a report for a non-profit or government agency. By creating an ORCID account you can manage all your publications and add any document format to ensure that all your research activities are included in your profile. This ability is very helpful when you need to showcase your research activity on your professional online page, resume, CV, grant application or for employment and promotion.

It takes less than one minute to register for your ORCID:

« Go to <https://orcid.org/register>

« Fill in the required fields

### TIP OF THE MONTH

#### Annual Himmelfarb Art Show Reception - Art and Fun!

Join us for the [Annual Himmelfarb Art Show Reception](#) held on April 7th from 4:00pm-5:30pm at Himmelfarb Library first floor. Come see the first floor of the Library transformed into an art gallery showcasing the talents of our faculty, staff and students. There will be light refreshments served – so come and celebrate with us and enjoy the talent on display!

Want to submit your art? Contact:

Synneva Ethon at

ORCID	FAQ
What is ORCID?	ORCID provides a persistent digital identifier that helps gather and identify all your professional activities. You can decide to set the settings to public, private or limited to only selected users. <a href="#">(Short Video)</a>
Authors with Similar Names	Helps distinguish you from other authors with similar names, hyphenated names or name changes (any variance in names such as married name or with/without middle initial)
Altmetrics	Captures how many times your article has been viewed, downloaded, or mentioned in social media
Seeking Funding	ORCID is increasingly being included in funding applications (e.g. NIH)
Submitting Manuscript	Many major publishers are requiring authors to provide their ORCID identifier when submitting a manuscript (e.g. Nature

	Publ. Group, Springer and Wiley).
