It has been accepted for inclusion in Himmelfarb Library Liaison Letters by an authorized administrator of Health Sciences Research Commons. For more information, please contact hsrc@gwu.edu.

July 2016

Whether you are looking for grant funding, evidence-based clinical information or research on environmental topics there are excellent databases to help you locate resources.

- « Dynamed Plus is a new and improved Dynamed database available beginning July 6th. It provides Micromedex's Clinical Knowledge Suite of drug, lab and medication management information, a new robust image library, as well as transparency on the strength of the evidence-based information posted on each record.
- « Need to locate funding for your next research project? Try Pivot database; create your own account and then begin to search for possible funders for your research.
- « Looking for hard-to-find environmental data? ProQuest Environmental Sciences Collection delivers not only peer-reviewed articles on environmental topics but also grey literature publications such as reports, government documents, and conference proceedings.

Come and explore!

DATABASES	DESCRIPTION
DynaMed Plus	Point-of-care tool that provides current, evidence-based clinical and drug information. (Video)
ProQuest Environmental Sciences Collection	Contains records from Environmental Sciences and Pollution Management (ESPM), environmental science articles and resources. (Guide/Video)
Pivot	Designed to locate and connect funding opportunities to researchers. Use your GW Email to create a personal login. Off-campus locations via VPN. (Videos)

Tip of the Month

Welcoming New Students: Fall Orientations 2016

If you are planning your fall semester, remember to contact Himmelfarb and schedule a library orientation session to help introduce your students to resources, guide them through effective searching and let them know where they can obtain assistance for their research project. Contact Alex Gomes at gomesa@gwu.edu.
