Himmelfarb Library's online book collection has grown steadily over recent years. Today, Himmelfarb Library provides access to more than 4,200 e-books and includes medical, health sciences, public health and nursing titles. We have also witnessed a rise in popularity and usage of e-books by students and faculty as these titles are available 24/7 from on- and off-campus locations. Many of our titles provide unlimited concurrent users while other titles are available for a fixed number of concurrent users. Please ask us if you need more information on the access level available for specific titles.
