NLM LITERATURE SEARCHES

Each year the National Library of Medicine publishes a series of comprehensive bibliographies on "hot" topics in the health sciences. Known as NLM Literature Searches, these bibliographies highlight major articles on such varied topics as AIDS, computer models in biomedical research, and the prevention of venous thrombosis. Most of the citations included in NLM Literature Searches are pulled from MEDLINE; however, supplementary materials from other databases are frequently included. Because these Literature Searches provide an excellent starting point for many research projects, they are collected by the Himmelfarb Library and housed in its reference collection. Each issue of the Library's newsletter carries an announcement of newly-published Literature Searches. Individuals wishing to review an NLM Literature Search can stop by the Library's reference desk or can order a copy of a search by contacting the National Library of Medicine, 8600 Rockville Pike, Bethesda, Md. 20209. Please include the search name, number, and a self-addressed and gummed label. Contents of NLM Literature Searches are freely reproducible.

Recent titles received include:

- 86-8 Use of Computer Models in Biomedical Research.
- 86-7 Nursing Diagnosis.
- 86-6 Antibody testing
- 86-5 Therapeutic Plasmapheresis in Neurological Disorders.

HSN VIDEO TAPES

The Bloedorn Audiovisual Study Center is now offering video programs recorded from the Hospital Satellite Network. These programs cover topics of interest to physicians, nurses, hospital managers, and allied health professionals; many offer continuing education credit. The video tapes are 1/2 inch, and may be checked out for home, office, or classroom use. Topics of the tapes now available for checkout include AIDS, Hospital Finance, Nursing Ethics, and CPR. Additional tapes will be added to the collection each month.

So that you may become familiar with the programs offered by the HSN, the library will be showing many of the tapes during the week of November 17 on the first floor of the library. For a schedule of the programs, or for further information, please call the Himmelfarb Reference Desk at x2850.

INFORMED SOURCES

Beginning in January, 1987, Himmelfarb Library will be receiving a monthly audiocassette series called **Informed Sources**. This audiomagazine deals with health care management topics, analyzing present and emerging issues in health care fields. **Informed Sources** will be available in the Bloedorn Audiovisual Study Center, and may be checked out by Medical Center staff, faculty or students.

NEW JOURNAL TITLES FOR 1987

The Himmelfarb Library will be adding 24 new journals to its subscription list for 1987. The following titles will begin arriving in January:

Aids Research
American Journal of Industrial Medicine
American Journal of Perinatology
Cancer Investigation
Caring
Cell and Tissue Research
Clinical Electroencephalography
Clinical Endocrinology
Clinical Rheumatology
Developmental Biology
Dimensions of Critical Care Nursing
EMBO Journal
Immunology Letters
Journal of General Internal Medicine
Journal of Neuroimmunology
Journal of Reconstructive Microsurgery
Journal of the Royal College of Physicians of London
Journal of Vascular Surgery
Microvascular Research
Parasite Immunology
Pediatric Infectious Disease Springer
Seminars in Immunopathology
Trends in Biochemical Sciences,
Monthly Magazine Edition
Urologic Radiology

MEDLINE FOR HEALTH PROFESSIONALS

The Himmelfarb Library is again offering the one-day course, "Searching MEDLINE on NLM: A Guide for the Health Professional." Class is scheduled from 9:00 a.m. to 4:00 p.m. on Wednesday, December 3, 1986. The class will introduce health professionals to the basic skills needed to search the MEDLINE database through the National Library of Medicine's MEDLARS system. Registration for GWUMC affiliates is \$35 and covers the cost of the course syllabus and lunch. The course is approved for category I CME credit. For more information, call Anne Linton at ext. 2850.

GWUMC ALUMNI PHOTOGRAPHS

Himmelfarb Library's Levine Student Lounge now houses a collection of photographs depicting several early GWUMC graduating classes, from turn of the century to more than a hundred years old. Restoration of these photographs was made possible by a gift from Charles I. Schneiderman, M.D., GWUMC Class of 1968. The collection was dedicated Saturday, Sept. 27, during Alumni Weekend.

SPRING SEMESTER RESERVES

It is not too early to begin thinking about the material you would like to place on reserve for the Spring Semester. Information packets containing instructions and Reserve Request Forms will be sent out in December. To expedite the process, complete the request forms and return them to the library as soon as possible. For additional information or forms, please call Suzanne Porter, x8906.

The Information Interface is published 6 times a year by the Himmelfarb Health Sciences Library, George Washington University Medical Center, 2300 Eye Street N.W., Washington, DC 20037. Editor: Barbara Collins; Faculty Publications Editor: Anne Linton; contributions to this issue: Tom Smith, Anne Linton, Suzanne Porter, Barbara Collins.
