MAY/JUNE

1990

## Art Show

Himmelfarb's Medical Center Art Show continues during the month of May. On exhibit will be examples of artwork and crafts produced by Medical Center faculty, staff and students. The exhibits will rotate throughout the month, and there is still time to bring in your creations for exhibit. Call Lori Johnson at ext. 43656 for information about exhibiting.

## WordPerfect Classes

The WordPerfect classes described in Himmelfarb's Course Schedule as "WordPerfect 5 for 4.2 Users" have been redesigned to include more advanced WordPerfect features. The classes will be offered as scheduled on May 15 and June 12, and will offer instruction in simple macros, merging primary and secondary files, blocking and moving text, searching, document summaries and other features. Participants are invited to bring WordPerfect problems to class. Due to the nature of these changes, the class will offer two hours of instruction, from 10 a.m. until 12 noon. Call the Reference Desk at ext. 42850 to register.

### INSIDE...

3RD FLOOR RECARPETING!

FALL RESERVES

FALL ORIENTATIONS

ONLINE CATALOG

## Library Catalog is Terminal

The Library catalog is now completely online. As you have probably noticed, the old card catalog has been moved to the back of the first floor and replaced with new catalog workstations. The card catalog is no longer being maintained and will be discarded sometime this summer. Those of you who are concerned about what happens when the system is "down" need not worry; we have developed a backup catalog that resides on a large hard disk of a PC and can be called when the main system is inoperable. While we hate to see a library fixture meet its demise, its legacy remains in the new online catalog.

The catalog itself will be taken apart and placed in offsite storage. If you have a use for a section of the physical catalog (it is just the right size for audiocassettes), or, if you have a special fondness for a certain section of cards (for example particular subjects, or your own works) we will be happy to give them to you. Please contact Laurie Thompson at ext. 42853.

---

## New Staff

The new Hospital Liaison Librarian is Sara Cook. Sara joins us from the University of North Carolina Health Sciences Library.

Ester Yap joins us as the new Serials Assistant. Ester worked in the Cataloging Department of the Gelman Library.

---

## Plan Your Fall Library Orientations

Do your students have the information retrieval skills necessary to complete assignments for your course? The Himmelfarb Library staff can provide specialized instruction for your students during a scheduled class period. You may wish to arrange a library tour, an orientation to the Microcomputer Laboratory, an online searching demonstration or a class in library resources. It's not too early to plan for the fall. To arrange a session, contact Sally Winthrop, User Education Librarian, at ext. 42850.

## Fall Reserves

The Himmelfarb Health Sciences Library will soon be inviting requests for all items to be placed in the Reserve Collection for the Fall 1990 semester. At the end of July, faculty will be receiving Reserve information packets. For more information call Mary Ann Urka at ext. 48906.

---

## Third Floor Recarpeting

The third floor of the Library will be undergoing a much-needed facelift this summer. The old and very worn carpeting will be replaced throughout the third floor book stacks, Audiovisual Study Center, conference rooms and study areas. The recarpeting is scheduled to begin July 16th. To assist in making the recarpeting project proceed as smoothly and quickly as possible, the Library will be closed to the general public from July 5-August 5. During this time period, only Medical Center personnel will be allowed visiting privileges. Although parts of the third floor may be inaccessible to Library patrons at various intervals of the project, Library staff will be available to assist in getting needed materials.

The Information Interface is published 6 times a year by the Himmelfarb Health Sciences Library, The George Washington University Medical Center, 2300 Eye Street N.W., Washington, D.C. 20037. Editor: Barbara Collins; Assistant Editor: Dana Powell-Givens; Faculty Publications Editor: Anne Linton. Contributions to this issue: Library Staff.
