June 2021

The fall semester is right around the corner! Himmelfarb Library has resources and tools that can help you with the planning process - consider these tools, resources, and services as you plan for next semester.

- **Linking to Journal Articles in Online Courses – Use Durable Links**

Do you plan on linking to Himmelfarb's electronic journal articles or e-books in your online course? If so, use durable links. Durable links will consistently deliver access to an e-journal or e-book regardless of if the user is on- or off-campus, and durable links do not require faculty to obtain copyright permission. Visit our [guide](#) on creating durable links or ask us to create them for you by emailing us at himmelfarb@gwu.edu.

- **Schedule a Library Orientation for your Students**

Interested in scheduling a library orientation session for your students? Himmelfarb Librarians are available to provide online or in-person orientations – please contact Elaine Sullo at elainej@gwu.edu.

- **Course Reserves**

Request electronic reserves linked within your Blackboard course or print reserves at Himmelfarb. For more information see our [Course Reserves](#) page.

- **Research/Literature Searching Consultations**

Getting research help is easy! Our reference librarians are available to answer your questions. Have a quick question? Use our [Ask a Librarian](#) service right from your computer and you'll be connected to our reference and research staff via chat. Need more in-depth assistance? Send an email to himmelfarb@gwu.edu with a brief description of your project/research and a reference librarian will contact you to set up a consultation.

- **Research Guides**

Himmelfarb Librarians have created online research guides that can help you and your students with everything from APA formatting to copyright to measuring your scholarly research impact. To browse our guides, visit the [library homepage](#) and explore the Research Guides section in the middle of the page.

New E-Books:

- **Cultural Competence**
[Counselling skills for working with gender diversity and identity](#)
- **Education**
[Essential skills for a medical teacher: An introduction to teaching and learning in medicine](#)
- **Infants/Neonatal Nursing**
[Neonatal Simulation: A Practical Guide](#) (faculty author: Dr. Lamia Soghier)
- **Maternity Nursing**
[Clinical practice guidelines for midwifery & women's health](#)
- **Medical Ethics**
[Reflections on medical ethics: A search for categories of medical ethics](#)
- **Pediatrics**
[Critical care of children with heart disease: Basic medical and surgical concepts](#) (faculty author: Dr. Ricardo Munoz)
- **Public Health**
[Foundations of rural public health in America](#)

TIP: Take a look at our new online guide, [Keeping Up with Health Sciences Information](#)

You'll find resources that can help you keep up with the literature in your field, and tools to make the process easier – like NEJM Journal Watch and Browzine.
