**LIBRARY ADMINISTRATION
CHANGES**

Laurie Thompson, Acting Director, Library Administration & Systems, announced her resignation effective January 16, 1998 and her appointment as Director of the Health Sciences Library at the State University of New York-Syracuse.

Laurie has been with the Himmelfarb Library for more than 11 years, holding several different positions including Associate Director. She has been an active member of numerous Medical Center and University Committees.

When Laurie arrived, she directed the implementation of miniMedline. She recently directed the development of the RFP for a new integrated library system through the final implementation of SIRSI, the new Himmelfarb library system. The new catalog has recently become available on the World Wide Web.

We know SUNY will profit from Laurie's exceptional leadership qualities and technical skills. Wishing her every success, we are happy for her national recognition and are proud to call her Himmelfarb's newest alumnae.

We are very fortunate to have a tal-

ented group of librarians within the Library organization. Anne Linton has been named Director of Library Services and Tanner Wray has been named Deputy Director, Library Operations.

*Shelley Bader, Ed.D.
Associate Vice President for Educational Resources*

**LIBRARY RECEIVES
PLEDGE OF SIGNIFICANT
GIFT FROM THE WOMEN'S
BOARD**

The Library is pleased to announce a pledge of \$110,000 from the George Washington University Hospital Women's Board. The funds will be used for the construction of a computer

learning lab to be housed on the Library's third floor in space formerly occupied by the Physician's Assistant Program administrative offices. Members of the Board met on November 5 in the Library to tour the space and discuss the results of a feasibility study, after which they voted to move forward with the pledge.

The new computer lab will be joined with the current microcomputer lab located in the Bloedorn Audiovisual Study Center. It will contain 15-20 new workstations, configured for individual study as well as group instruction. There will also be small group study rooms. Preliminary plans call for completion for the fall 1998 semester.

The Library wishes to thank the Women's Board for their generous pledge which will greatly enhance teaching and learning activities in the Library.

STRATEGIC PLANNING EFFORT UNDERWAY

Members of the Library staff have been devoting many hours to developing a strategic plan to guide them as they move forward on a number of initiatives. Following a "blue-sky" session in June, the ideas which were generated were grouped into 7 categories: Electronic Collections, CAI and Instruction, World Wide Web/One Stop Shopping, Equipment and Support, Outreach/Marketing, History and Archives, and Administrative. Committees have been formed to describe the existing environment and draft goals for each category. Following library-wide discussions of each committee report, strategies will be developed and presented for timelines and resource allocations. As the results of the planning develop, they will be shared in the *Information Interface*.

NEW INTERLIBRARY LOAN/DOCUMENT DELIVERY STAFF

Charles Iragui, former Interlibrary Loan Specialist, is now Document Delivery Manager. Questions about ordering, subscribing or billing for any of these services should be addressed to Charles at (202) 994-3684. His new work schedule is 10:00AM-2:00PM Monday through Friday.

Olumide Olumilua has been hired as

Interlibrary Loan Specialist. Please call (202) 994-2860 for assistance with interlibrary loan requests. The ILL office is staffed from 7:30AM to 4:00PM Monday through Friday.

DATABASE SEARCH STATIONS

You can access MEDLINE and other databases from any PC on the first floor of the Library. Because our stations are so busy with other activities, the Library has reserved four stations for MEDLINE and database access only (no email, Web access, etc.) These machines are in front of and to the right of the Reference Desk as you approach the Desk. If you need immediate MEDLINE access for patient care questions and no station is available, please notify the librarian at the Reference Desk.

UNIVERSITY INSTRUCTIONAL TECHNOLOGY LAB

A new resource is available to faculty members interested in using educational technology in the classroom. The Computer Information and Resource Center (CIRC) has opened the Instructional Technology Lab in the basement of Gelman Library, Room B05A.

Faculty members can use this facility to develop course materials, learn new technologies, experiment with hardware and software, and receive support implementing technology related instruction.

The Lab is equipped with PCs, MACs,

scanners, DVD drives, authoring programs, a CD recorder, HTML editors, video capture capabilities, and other software and hardware. Most importantly, it is staffed by experts in the use of educational technology to enhance instruction.

Call Bill Koffenberger, (202) 994-3347 (billkoff@gwis2.circ.gwu.edu) or Bo Davis, (202) 994-3348 (davisb@gwis2.circ.gwu.edu) if you'd like more information or assistance.

Operating hours for walk-in visits run from 10:00am-4:30pm Monday
