

Technical Corrections

March 5, 2010

Pg. 20 Sentence reads:

There is no uniform system currently available for definitively measuring the presence of childhood asthma.

Sentence should read:

There is no uniform system currently available that -- in real time and at a community level -- can measure the presence of asthma among children as well as the proportion of children with asthma who are receiving appropriate treatment.

Pg. 23 Figure 5 Childhood Asthma is National in Scope but More Common in Certain States, 2003

Legend was listed as:

5.7-7.4%

7.5-8.6%

8.7-10.0%

10.1-10.9%

Legend should be:

5.7-7.4%

7.5-8.6%

8.7-10.0%

10.1-11.9%

Pg. 23 Sentence reads:

But among children who receive their care from community health centers, which report cases, the incidence of asthma is virtually identical, regardless of urban/rural setting (Figure 6).

Sentence should read:

But among children who receive their care from community health centers, which report cases, the prevalence of asthma is virtually identical, regardless of urban/rural setting (Figure 6).

Pg. 25 Sentence reads:

African-American children are nearly nine times as likely as white children to experience death from asthma (Table 1).

Sentence should read:

African-American children are nearly seven times as likely as white children to experience death from asthma (Table 1).

Pg. 28 Figure 11 Uninsured Children with Asthma Use Fewer Services, 1996-2000

Citation was listed as:
